INCEPTION

T-FIX-TF-0001-A

Inspired by infinity mirrors from the 1970s, the Inception coffee table features a glass tabletop that lights up to reveal a seemingly endless line of reflections, appearing smaller and smaller as they fade into the distance. When it's turned off, it becomes an elegant glass-topped table, mounted on a Flat Brass pedestal base. Once turned on, it's as though a portal has been opened, leading you and your guests into another dimension. LED antique bulbs create a lighting effect that's soft and mellow, perfect for evening entertaining. Handcrafted with the finest detail, the Inception is a spectacular showcase of artistry and drama.
