ROD

T-ROD-LT-0004-U

The Rod collection is a modern day interpretation of Venetian Murano brass and glass library lights from the 1940s. The elliptical glass rod structure is inspired by the colonnades of Stowe School which made a huge impression on Tim during a visit for an away game in his school days. The dazzling opulence of the glass is daringly contrasted with our natural raw iron finish which accentuates the imperfections made in the handcrafting of the light. Available in a range of lighting as well as illuminating furniture pieces including the console and coffee table.
