SPUR

T-KIS-TS-0002-Z

Bring the spirit of nature indoors with this sensuous feast of textures. Smooth cold acrylic is juxtaposed with the warmth of raw driftwood for a tantalisingly tactile experience. The driftwood has been collected by hand from beaches all over the world, each piece uniquely marked by swathing tides and weathered shores. Beautifully handcrafted, the once forgotten wood is suspended within the liquid acrylic, each tiny bubble like a last breath of air before being frozen in time. Optionally available with a built-in LED panel, creating a dramatic visual effect when lit.
